SETTINGS

Additional Information

How it works...

Instead of the traditional metal receiving grooves in the previous Tri-Creaser Fast-Fit, the nylon Female Receiver Rings are fitted with a special profile designed to apply a double-reverse crease either side of the male creasing rib.

Optional Items

If fibre-cracking is not a problem these deep and penetrating nylon ribs are ideal for laminated and section work:

FF-PC-HH/35 Black extra heavy crease

White Very Narrow Female Receiver Ring (FF-DSF/HH-35-NY-W):
used to crease material weights between 60-200gsm

Contents of Package

1x Male Creasing Rib Holder Component (M):
contains the split gripper crease ribs

1x Orange Split Gripper Crease (M-121B-SB):
used to crease material weight between 85-150gsm
